AMENDMENTSIn the Claims:

Please amend claim 6 as follows:

6. (Amended) A sound signal analyzing device comprising:
an input section that receives a sound signal;
a pitch extraction section that extracts a pitch of the sound signal received by said input section;
a scale designation section that selects a scale determining condition; and
a note determination section that, in accordance with the scale determining condition selected by said scale designation section, determines a particular one of scale notes which the pitch of the sound signal extracted by said pitch extraction section corresponds to.
